

Olivier Audard

[Online version](#)

Web Front-end Engineer

Enthusiast about the Web platform, I gained a solid experience in front-end technologies and client-server applications. I'm now looking for a game-changing project, within a great team.

Experience

2010 – Present Web Front-end Engineer

Docapost BPO – Sophia-Antipolis

Developments on Contralia product roadmap (SaaS solution for digital signature). UI development on various signature components (touch pads, OTP sent by SMS, cryptographic token, biometric signature pads), HTML/CSS/JS integration, JS teaching, mobile development, prototyping.

2008 – 2010 Front-end Engineer

Babel Networks – Sophia-Antipolis

Babelgum is a free Internet TV platform. HTML/CSS/Javascript and iOS development. Scrum methodology within an international start-up environment.

2008 – Present Front-end Engineer

Avisto – Sophia-Antipolis

Avisto is a French consultancy company. My main assignments were long-term missions in Babel Network and Extelia. I occasionally worked as a technical auditor or teacher.

2005 – 2007 Web Engineer

Annuaire-CE – Sophia-Antipolis

Design, Development, Maintenance of the company Web sites as well as internal tools.
